## How can I update to the latest version of Liquid Notes?

Last Updated: Oct 13, 2017 06:30PM CEST

---

This article talks about the update procedure to retrieve the latest version of Liquid Notes.

**Quick Answer:** Use the auto-update function within Liquid Notes, or download the software from our website.

[Update, 13 Oct 2017: A new license management system is used as per today, which renders the Nalpeiron license manager as obsolete. Fill in your customer data in this form for us to provide you with the latest software build - <http://re-compose.com/activate-your-license-for-liquid-notes.html> ]

### Updating to the latest version of Liquid Notes

Liquid Notes comes with a version check feature that, granted you have enable the checkbox *Automatically check for updates* in *Settings* and there is a connection to the Internet, will automatically inform you if a newer version is available. A dialog box will show presenting you the download link to this newer version of Liquid Notes.

Alternatively, you can always download the latest version of Liquid Notes from the download page of our website - <http://www.re-compose.com/download-liquid-notes-music-software.html>. Enter your details there and the download link for the latest version of Liquid Notes will be shown to you.

Download the file, install the executable and launch Liquid Notes - that's it!
