## How do I adjust the playback tempo in Liquid Notes?

Last Updated: Dec 21, 2013 01:26PM CET

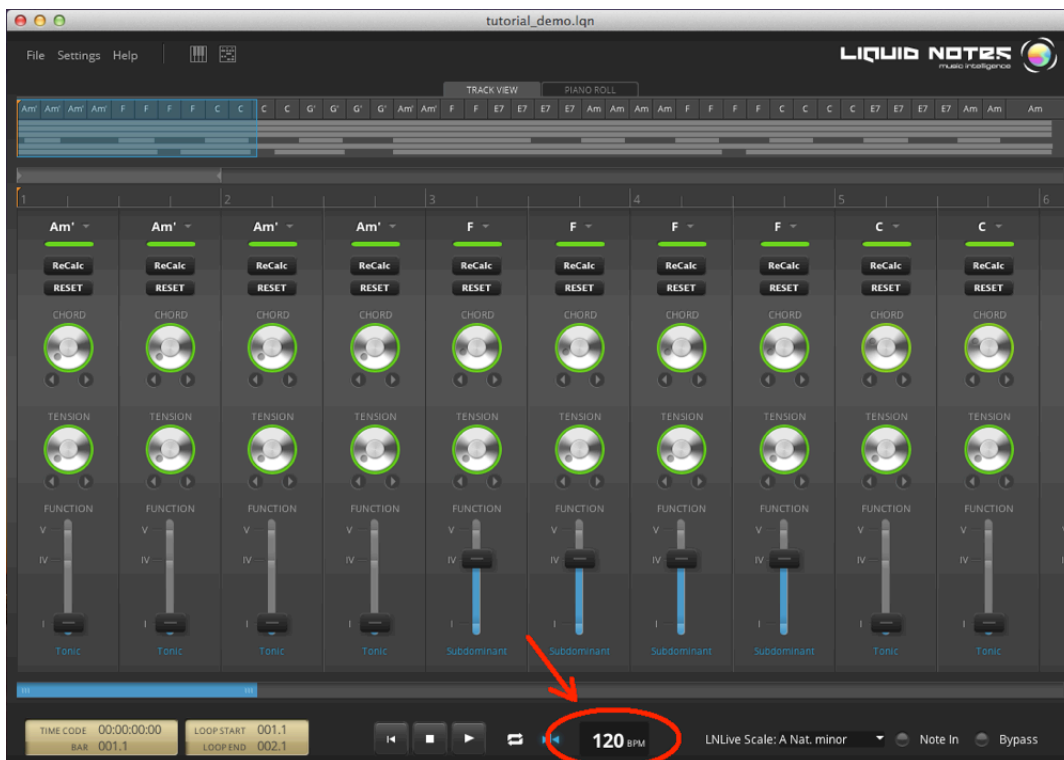

This article talks about adjusting the playback tempo of your song in Liquid Notes.

**Quick answer:** Find the playback tempo selector window at the bottom of Liquid Notes, and enter the BPM you'd like your song to play.

### Playback tempo adjustment in Liquid Notes

A tempo adjustment function in Liquid Notes allows you to define the tempo of the song by beats per minute (BPM). To adjust the tempo to your liking, simply click the tempo selector window and enter the tempo in BPM you'd like the song to play.

Here is where to find the tempo selector window:

The selectable range for the playback tempo in Liquid Notes is 40 BPM to 240 BPM. Entries higher or lower than those values will be disregarded by the software.
